

Full-time Faculty Position
Assistant Professor (Non-tenure Track)
at Sbarro Health Research Organization
Department of Biology
College of Science and Technology
Temple University

The Sbarro Health Research Organization, located at Temple University, seeks qualified applicants for a full-time, non-tenure-track faculty position at the Assistant Professor level, commencing June 1st, 2019. As a research assistant professor your principal responsibility will be to work on the research project focused on the study of the cell cycle regulation of cancer cells. In particular, medulloblastoma and glioblastoma, with a specific focus on the role of pRb2/p130 and its cellular targets. You will also be expected to explore new ideas and contribute to funding proposals.

Qualifications of competitive candidates would include a doctoral degree in the *Biological Sciences* or *Biochemical Sciences* and recent research experience with a track record of impactful publications. Tutoring and training experience of students from various academic levels and backgrounds in laboratory standards and techniques are also required. Knowledge of the Italian language would be preferred.

Applicants should submit to Marinela.Dedaj@temple.edu a single pdf attachment that contains (i) a cover letter that includes a personal statement of qualifications for the position, (ii) a curriculum vitae, including a description of research experiences and publications, (iii) the names and contact information of three references.

Review of application files will begin immediately and will continue until the position is filled. Temple University is an equal opportunity, equal access, affirmative action employer committed to achieving a diverse community (AA, EOE, m/f/d/v).
